Late proxies may be accepted or rejected by the Chair of the Meeting in his or her discretion.

Non-Registered Shareholders

Most shareholders of the Corporation are “non-registered” shareholders (“**Non-Registered Shareholders**”) because the common shares they own are not registered in their name but are registered in the name of an intermediary such as a bank, trust company, securities dealer or broker, trustee or administrator, of a self-administered RRSP, RRIF, or RESP or a clearing agency (such as CDS Clearing and Depository Services Inc.) of which the intermediary is a participant.

Non-Registered Shareholders who have not objected to their intermediary disclosing certain ownership information about themselves to the Corporation are referred to as “NOBOs”. Those Non-Registered Shareholders who have objected to their intermediary disclosing ownership information about themselves to the Corporation are referred to as “OBOs”.

In accordance with the requirements of National Instrument 54-101 of the Canadian Securities Administrators (“**NI 54-101**”), the Corporation has elected to distribute copies of the Notice of Meeting and this Circular (collectively, the “**Meeting Materials**”) indirectly through intermediaries to the NOBOs and OBOs. The Corporation is not relying on the notice and access delivery procedures outlined in NI 54-101 to distribute copies of Meeting Materials in connection with the Meeting.

Applicable regulatory policy requires intermediaries/brokers to whom Meeting Materials have been sent to seek voting instructions from Non-Registered Shareholders in advance of shareholders’ meetings. Every intermediary has its own mailing procedures and provides its own return instructions, which should be carefully followed in order to ensure that the Non-Registered Shareholder’s common shares are voted at the Meeting.

The majority of intermediaries now delegate responsibility for obtaining instructions from Non-Registered Shareholders to Broadridge Financial Solutions, Inc. (“**Broadridge**”). Broadridge typically mails a scannable voting instruction form (“**VIF**”), instead of the form of proxy. Non-Registered Shareholders are requested to complete and return the VIF to Broadridge. Alternatively, Non-Registered Shareholders can call a toll-free telephone number or access Broadridge’s dedicated voting website www.proxyvote.com.

The VIF must be returned as directed by Broadridge well in advance of the Meeting in order to have the common shares voted. Non-Registered Shareholders who receive forms of proxies or voting materials from organizations other than Broadridge should complete and return such forms of proxies or voting materials in accordance with the instructions on such materials in order to properly vote their common shares at the Meeting.

IsoEnergy may utilize the Broadridge QuickVote™ service to assist Non-Registered Shareholders vote their shares.

The Corporation does not intend to pay for intermediaries to forward to OBOs under 54-101 the Meeting Materials and Form 54-101F7 – *Request for Voting Instructions Made by Intermediary*, and an OBO will not receive the materials unless the OBO’s intermediary assumes the cost of delivery.

Non-Registered Shareholders are not entitled, as such, to vote at the Meeting in person or to deliver a form of proxy. If you are a Non-Registered Shareholder and wish to appoint yourself as proxyholder to vote in person at the Meeting or appoint someone else to attend the Meeting and vote on your behalf, please see the voting instructions you received or contact your intermediary/broker well in advance of the Meeting to determine how you can do so.

Non-Registered Shareholders should carefully follow the voting instructions they receive, including those on how and when voting instructions are to be provided, in order to have their common shares voted at the Meeting.

These securityholder materials are being sent to both registered and non-registered owners of the securities. If you are a non-registered owner, and the issuer or its agent has sent these materials directly to you, your name and address and information about your holdings of securities, have been obtained in accordance with applicable securities regulatory requirements from the intermediary holding on your behalf.

By choosing to send these materials to you directly, the issuer (and not the intermediary holding on your behalf) has assumed responsibility for (i) delivering these materials to you; and (ii) executing your proper voting instructions. Please return your voting instructions as specified in the request for voting instructions.

Revocation of Proxies

Only a registered IsoEnergy shareholder who has submitted a proxy may revoke it at any time prior to the exercise thereof. In addition to revocation in any other manner permitted by law, a proxy may be revoked by instrument in writing executed by the IsoEnergy shareholder or such shareholder’s legal representative, or, if the IsoEnergy shareholder is a corporation, by its duly authorized signatory, and deposited at the Corporation’s registered office: 2600 – 1066 West Hastings Street, Vancouver, British Columbia V6E 3X1, at any time up to and including the last business day preceding the day of the Meeting at which the proxy is to be used, or with the Chair of the Meeting on the day of the Meeting prior to voting and, upon either of such deposits, the proxy is revoked.

Non-Registered Shareholders who wish to change their vote must, in sufficient time in advance of the Meeting, arrange for their respective intermediaries to change their vote and if necessary revoke the proxy on their behalf.

Approval of Option Plan

The Corporation's stock option plan (the "**Option Plan**") was last approved by the shareholders at the Corporation's annual general meeting held on June 8, 2017. The purpose of the Option Plan is to promote the profitability and growth of the Corporation by facilitating the efforts of IsoEnergy to attract and retain key individuals.

The Option Plan is a "rolling" stock option plan which sets the number of common shares of the Corporation that may be reserved for issuance thereunder at any time at 10% of the issued and outstanding common shares of the Corporation calculated as at the time of the proposed option grant, less any shares reserved for issuance under any other security-based compensation plan of the Corporation.

As a result, the policies of the TSX Venture Exchange (the "**TSXV**") require shareholder approval of the Option Plan at each annual meeting of shareholders of the Corporation. Therefore, shareholders will be asked to consider and, if deemed appropriate, to pass, with or without variation, a resolution approving the Option Plan:

The following are the material terms of the Option Plan:

- (a) The Option Plan is administered by the Board. The Compensation and Governance Committee is responsible for recommending for approval to the Board the number of common shares subject to each option, within the guidelines established by the TSXV.
- (b) In accordance with the policies of the TSXV, the Corporation may grant options to the following persons: (i) directors, officers and employees of the Corporation; (ii) consultants to the Corporation; and (iii) a company that is wholly-owned by a person listed in (i) or (ii).
- (c) The options enable the holders to purchase common shares of the Corporation at a price fixed in accordance with the policies of the TSXV. Subject to a minimum exercise price of \$0.05 per common share, the exercise price per common share for an option shall be not less than the "Discounted Market Price" as calculated pursuant to the TSXV policies, or such other minimum price as may be required by the TSXV.
- (d) The number of common shares reserved for issuance under the Option Plan and any other security based compensation arrangement in any 12 month period to any one person may not exceed 5% of the issued and outstanding common shares at the date of the grant, unless the Corporation has received disinterested shareholder approval.
- (e) The number of common shares reserved for issuance under the Option Plan and any other security based compensation arrangement in any 12 month period to any one consultant may not exceed 2% of the issued and outstanding common shares at the date of the grant.

- (f) The number of common shares reserved for issuance under the Option Plan and any other security based compensation arrangement in any 12 month period, in aggregate, to all persons conducting investor relations activities may not exceed 2% of the issued and outstanding common shares at the date of the grant.
- (g) The aggregate number of common shares reserved for issuance to insiders under the Option Plan and any other security based compensation arrangement may not exceed 10% of the outstanding common shares at the time of the grant, unless the Corporation has received disinterested shareholder approval.
- (h) The aggregate number of options granted to insiders in any 12 month period under the Option Plan and any other security based compensation arrangement may not exceed 10% of the outstanding common shares at the time of the grant, unless the Corporation has received disinterested shareholder approval.
- (i) Every option granted under the Option Plan shall have a term not exceeding 10 years, and shall therefore expire no later than 10 years after the date of grant.
- (j) Subject to the Option Plan and otherwise in compliance with the policies of the TSXV, the Board shall determine the manner in which an option shall vest and become exercisable. Options granted to consultants performing investor relations activities shall vest over a minimum of 12 months with no more than one-quarter (1/4) of such options vesting in any three-month period.
- (k) Options issued pursuant to the Option Plan may not be assigned or transferred.
- (l) If a director, officer, employee or consultant (each, a "**Participant**") is terminated for cause, then each option held by such Participant shall terminate and shall therefore cease to be exercisable no later than the earlier of the expiry date and the date which is 30 days after the date of termination.
- (m) If a Participant dies prior to otherwise ceasing to be an eligible person, each option held by such Participant shall terminate and shall therefore cease to be exercisable no later than the earlier of the expiry date and the date which is 12 months after the date of the Participant's death.
- (n) If a Participant ceases to be an eligible person other than in the circumstances set out above, each option held by such Participant shall terminate and shall therefore cease to be exercisable no later than the earlier of the expiry date and the date which is 90 days after such terminating event, provided that the Board may allow for each option held by such Participant to terminate and cease to be exercisable on such later date following the Participant ceasing to be an eligible person as the Board in its discretion may determine is reasonable.
- (o) If any portion of an option is not vested at the time a Participant ceases, for any reason whatsoever, to be an eligible person, such unvested portion of the option may not be thereafter exercised by the Participant or its legal representative, as the case may be, provided that the Board may, in its discretion, thereafter permit the Participant or its legal representative, as the case may be, to exercise all or any part of such unvested portion of the option.
- (p) The Option Plan provides that if a change of control of the Corporation occurs (including a consolidation, merger, amalgamation, arrangement, sale of all or substantially all of the assets of the Corporation, or acquisition which results in the holders of the Corporation's common shares holding less than 50% of the outstanding shares of the successor corporation), all of the options issued pursuant to the Option Plan will become vested and may be exercised in whole or in part by the Participant, subject to the approval of the TSXV, if necessary.
- (q) An option will be automatically extended if the expiry date falls within a period during which the Corporation prohibits holders from exercising options ("**Blackout Period**") provided that the Blackout Period is formally imposed by the Corporation, the Blackout Period expires on the

general disclosure of the undisclosed material information and neither the option holder nor the Corporation is subject to a cease trade (or similar) order.

As of the date hereof, there are options outstanding to purchase an aggregate of 4,515,000 common shares, representing approximately 8.33% of the current issued and outstanding common shares of the Corporation.

Approval Required

“BE IT RESOLVED THAT, subject to any required stock exchange approvals, the Option Plan be and is hereby re-approved.”

The resolution may be passed by a simple majority of the shares voted by shareholders of the Corporation who vote on the matter in person or by proxy.

The Board is of the view that the Option Plan provides the Corporation with the flexibility necessary to attract and maintain the services of senior executives and other employees by offering competitive compensation relative to other companies in the industry. Accordingly, the Board recommends that shareholders vote in favour of the resolution approving the Option Plan.

Unless otherwise indicated, the persons designated as proxyholders in the accompanying form of proxy will vote the common shares represented by such form of proxy FOR the approval of the Option Plan.

Shareholders may obtain a copy of the Option Plan by contacting the Corporation.

Stock Option Plans

For a description of the material terms of the Company's Option Plan please see "Approval of Option Plan" above.

Employment and Consulting Agreements

Each of the Named Executive Officers is party to an employment agreement with IsoEnergy (each, an "Executive Employment Agreement").

The Executive Employment Agreements establish base compensation comprised of base salary and eligibility for performance-based cash incentives. Named Executive Officers are also eligible to participate in the Option Plan, at the discretion of the Board. The Executive Employment Agreements are effective until such time as they are terminated in accordance with their terms.

The Executive Employment Agreements also provide for termination payments in the event that: (i) the Named Executive Officer's employment is terminated without cause (including constructive dismissal); or (ii) within 12 months of a "change of control", the Named Executive Officer is terminated without cause or resigns.

In each case, the terminated Named Executive Officer is entitled to a termination payment equal to the product obtained by multiplying: (i) the sum of (a) their annual base salary; and (b) their highest bonus (including both special and annual performance bonuses) paid or payable in the preceding three years, in each case, calculated on a monthly basis, by (ii) a period of between 12 and 36 months, with longer periods being applicable only in the case of a change of control (the "Severance Period"). The Named Executive Officer is also entitled to the continuation of benefits during the Severance Period, or in the event IsoEnergy is unable to continue such benefits, payment in lieu equal to the cost of such benefits to IsoEnergy.

In addition, the terminated Named Executive Officer is entitled to a payment equal to the sum of: (i) all earned but unpaid salary, earned but unpaid bonus, outstanding but untaken vacation pay, and outstanding expenses; and (ii) the terminated Named Executive Officer's highest bonus over the preceding three years, prorated to the date of termination (the "Final Wages").

All outstanding options held by the terminated Named Executive Officer will also vest immediately and continue to be exercisable until the earlier of the expiry of their term or such period imposed by an applicable regulatory body.

The estimated incremental payments (excluding the Final Wages) payable by the Corporation to each Named Executive Officer upon termination without cause or related to a change of control, assuming the triggering event occurred on December 31, 2017, are as follows.

Steve Blower ⁽³⁾ Vice President, Exploration	Termination Without Cause Change of Control	230,000 460,000

Notes:

- (2) Ms. Richardson holds 140,000 stock options, holding no value as of December 31, 2017
- (3) Mr. Blower holds 360,000 stock options holding no value as of December 31, 2017.

There are no significant conditions or obligations that apply to the receipt of the foregoing incremental payments.

Oversight and Description of Director and Named Executive Officer Compensation

IsoEnergy was incorporated in February 2016 and commenced operations April 1, 2016. Accordingly, Mr. Parry's compensation for the 2016 fiscal year was effectively determined by the board of directors of NexGen. Mr. Blower's compensation and Ms. Richardson's compensation for the 2016 fiscal year was determined by Mr. Parry after consultation with members of the Board.

The Board established the Compensation and Governance Committee on August 11, 2016. The Board is responsible for overseeing IsoEnergy's compensation program. The Board has however delegated certain oversight responsibilities in this regard to the Compensation and Governance Committee but retains final authority over IsoEnergy's compensation program and process.

Compensation of the Corporation's current executive officers consists of a base salary, annual incentive compensation in the form of a discretionary performance bonus and/or special bonus and a longer term incentive in the form of stock options, all of which is intended to be competitive in the aggregate while delivering an appropriate balance between annual compensation (base salary and cash bonuses) and long-term compensation (stock options).

Base salaries are based on a number of factors and designed to best position the Corporation to compete for, and retain, executives critical to the Corporation's long-term success. Performance bonuses and special bonuses (in the form of cash bonuses) are directly tied to corporate and individual performance. Long-term incentive awards consist of stock options and are designed to align the interests of executive officers with the longer term interests of shareholders.

The Chairman of the Compensation and Governance Committee meets with the Chief Executive Officer periodically to discuss corporate goals and performance and to discuss the performance of executive officers individually. The Compensation and Governance Committee works with the Chief Executive Officer to set compensation, including proposed salary adjustments, performance and/or special bonuses and stock option awards for executive officers.

The Compensation and Governance Committee then makes recommendations relating to the compensation of executive officers to the Board. Based on these recommendations, the Board makes decisions concerning the nature and scope of the compensation to be paid to the Corporation's executive officers. The Compensation and Governance Committee bases its recommendations to the Board on its compensation philosophy and the Compensation and Governance Committee's assessment of corporate and individual performance, recruiting and retention needs.

In establishing base salaries, the Compensation and Governance Committee will consider factors such as experience, individual performance, length of service, contribution towards the achievement of corporate objectives and positive exploration and development results, stock price, and compensation compared to other employment opportunities for executives. In determining base salary, the Compensation and Governance Committee will also review available market data for other comparable Canadian uranium exploration companies. Given the stage of IsoEnergy's development a peer group has not yet been identified. Salaries are reviewed annually by the Board based on recommendations of the Compensation and Governance Committee.

Bonuses are either based on performance over the year (a "**Performance Bonus**") and/or based on the achievement of a particular and extraordinary corporate transaction or other milestone (a "**Special Bonus**").

A maximum Performance Bonus is determined for each executive officer as a percentage of salary. The maximum performance bonus is 75% of base salary for the Chief Executive Officer and 50% for the Vice President Exploration and Chief Financial Officer. Key performance indicators for those individuals are determined by the Compensation and Governance Committee annually for the ensuing year and recommended to the Board for approval, on an individual basis.

However, due to the stage of IsoEnergy's development and limited corporate history, pre-determined, measurable corporate and/or individual performance objectives were not set for 2016.

Key performance indicators for 2017 included (to various extents) share appreciation, completion of a financing, management of operations within budget, and the Corporation's health and safety record. Individual performance objectives related to the particular executive's role and expected contribution to the Corporation and its objectives.

Special Bonuses are awarded on an ad hoc basis during the year based on the completion of material corporate transactions and/or other milestones. Special Bonuses are not based on pre-determined objectives and are intended to award extraordinary effort and achievement without financial incentive. Special Bonuses are determined by the Compensation and Governance Committee based on discussions, to the extent appropriate, with the Chief Executive Officer. To date, no Special Bonuses have been awarded.

Stock options are granted on a discretionary basis, based on the Board and the Compensation and Governance Committee's assessments of responsibilities and achievements, recognizing that at the earlier stage of development, stock option awards can help preserve cash resources. Generally, the number of options granted to any executive officer are a function of the level of authority and responsibility of the executive officer, the contribution of the executive officer to the business and affairs of IsoEnergy, the number of options IsoEnergy has already granted to the executive officer, and such other factors as the Compensation and Governance Committee may consider relevant.

AUDIT COMMITTEE AND CORPORATE GOVERNANCE

Audit Committee

Charter, Composition and Relevant Experience and Education

The Audit Committee has the responsibility of, among other things: recommending IsoEnergy's independent auditor to the Board, determining the extent of involvement of the independent auditor in reviewing unaudited quarter financial results, evaluating the qualifications, performance and independence of the independent auditor; reviewing and recommending approval of Board's annual and quarter financial results and management's discussion and analysis and overseeing the establishment of "whistle-blower" and related procedures. A copy of the Audit Committee Charter is attached to this Circular as Schedule "A".

The Audit Committee is currently comprised of Messrs. Thiele (Chair), McFadden and Patricio. All of the members of the Audit Committee are independent and financially literate, in each case, as defined under National Instrument 52-110 – *Audit Committees* ("**NI 52-110**"). A general description of the education and experience of each Audit Committee member which is relevant to the performance of his responsibilities as an Audit Committee member is contained in their respective biographies set out above under "*Directors and Executive Officers*".

Audit Committee Oversight

At no time since incorporation have any recommendations by the Audit Committee respecting the appointment and/or compensation of IsoEnergy's external auditors not been adopted by the Board.

Reliance on Certain Exemptions

At no time since the incorporation of IsoEnergy has IsoEnergy relied on the exemption in Section 2.4 of NI 52-110 (*De Minimis Non-Audit Services*) or an exemption from NI 52-110, in whole or in part, granted under Part 8 (*Exemptions*) of NI 52-110. As a venture issuer, IsoEnergy is relying on the exemption in Section 6.1 of NI 52-110 (*Venture Issuers*).

Pre-Approval Policies and Procedures

Pursuant to the terms of the Audit Committee Charter, the Audit Committee shall pre-approve all non-audit services to be provided to IsoEnergy by the external auditor.

Corporate Governance

The following is a discussion of each of IsoEnergy's corporate governance practices for which disclosure is required by National Instrument 58-101 – *Disclosure of Corporate Governance Practices (the "Disclosure Instrument")*. Unless otherwise indicated, the Board believes that its corporate governance practices are consistent with those recommended by National Policy 58-201 – *Corporate Governance Guidelines*. A copy of the charter of the Board is attached to this Circular as Schedule "B".

Independence

For the purposes of the Disclosure Instrument, a director is independent if he or she has no direct or indirect material relationship with IsoEnergy. A "material relationship" is one which could, in the view of the Board, reasonably be expected to interfere with his or her ability to exercise independent judgment. Certain specified relationships will, in all circumstances, be considered, for the purposes of the Disclosure Instrument, to be material relationships.

As of the date hereof, the Board consists of five (5) individuals, three (3) of whom are independent. The current independent directors are: Christopher McFadden, Richard Patricio and Trevor Thiele. Mr. Parry and Mr. Curyer are not independent on the basis they are either an executive officer of IsoEnergy, in the case of Mr. Parry, or of NexGen, an affiliate of IsoEnergy, in the case of Mr. Curyer.

Directorships

Set forth below is a list of the reporting issuers or reporting issuer equivalent(s) of which any of the directors of IsoEnergy are also directors:

Name of Director	Reporting Issuer(s) or Equivalent(s)
Leigh Curyer	NexGen Energy Ltd. ⁽¹⁾ NxGold Ltd.
Christopher McFadden	NexGen Energy Ltd. ⁽¹⁾ NxGold Ltd.
Craig Parry	NexGen Energy Ltd. ⁽¹⁾ Skeena Resources Limited
Richard Patricio	NexGen Energy Ltd. ⁽¹⁾⁽²⁾ Latin American Minerals Inc. NxGold Ltd. Toro Energy Limited ⁽²⁾
Trevor Thiele	NexGen Energy Ltd. ⁽¹⁾ NxGold Ltd.

Notes:

- (1) NexGen holds approximately 60.02% of the outstanding common shares of IsoEnergy. Accordingly, NexGen is an affiliate of IsoEnergy.
- (2) Mr. Patricio's directorship at NexGen Energy Ltd. and Toro Energy Limited is a result of his management role at Mega Uranium Ltd. Latin American Minerals Inc. and NxGold Ltd. are Mr. Patricio's only directorships which are distinct from his principal occupation.

Orientation and Continuing Education

As of the date hereof, all of the directors of IsoEnergy are also directors or executive officers of NexGen, an affiliate of IsoEnergy. As a result, orientation of members of the IsoEnergy Board has not been required to date. Given the current size of IsoEnergy, its corporate history and its stage of development, and as each new director will have a different skill set and professional background, future specific orientation and training activities will be tailored to the particular needs and experience of each director and consist primarily of meetings with members of the executive management team.

The Board will provide continuing education for directors on an ad hoc basis in respect of issues that are necessary for them to meet their obligations as directors. All of the directors are actively involved in their respective areas of expertise and have full access to management. Directors are periodically provided with the opportunity to visit IsoEnergy's properties to become familiar with IsoEnergy's operations. Presentations by management and IsoEnergy's advisors will also be organized, as needed, to provide ongoing director education.

Ethical Business Conduct

As part of its responsibility for the stewardship of IsoEnergy, the Board seeks to foster a culture of ethical conduct by requiring IsoEnergy to carry out its business in accordance with high business and moral standards and applicable legal and financial requirements. The Board has formalized this in its Code of Business Ethics.

Nomination of Directors

IsoEnergy has not yet had to consider appointing new members to the Board. However, IsoEnergy's Compensation and Governance Committee is responsible for assisting the Board in respect of the nomination of directors and identifying new candidates for appointment to the Board.

Compensation

The Compensation and Governance Committee establishes criteria for Board membership and composition, and makes recommendations to the Board thereon. The Compensation and Governance Committee also makes recommendations for the assignment of Board members to Board committees and oversees the process for director succession. In that regard, the Compensation and Governance Committee is also responsible for assessing the competencies and skills of existing directors and those required for nominees to the Board, with a view to ensuring that the Board is consistently comprised of directors with the necessary skills and experience to facilitate effective decision-making. The

Compensation and Governance Committee may retain external consultants or advisors to conduct searches for appropriate potential director candidates if necessary.

For details regarding IsoEnergy's approach to the compensation of executive officers, including the Chief Executive Officer and the role of the Compensation and Governance Committee, see "*Executive Compensation*" above.

Other Committees

IsoEnergy does not have any standing committees other than the Audit Committee and Compensation and Governance Committee.

Assessments

At present, the Board does not have a formal process for assessing the effectiveness of the Board, the effectiveness of Board committees and whether individual directors are performing effectively. The Board is of the view that the Corporation's shareholders provide the most effective and objective assessment of the Board's performance.

SECURITIES AUTHORIZED FOR ISSUANCE UNDER EQUITY COMPENSATION PLANS

The following table sets out information as of the end of the Corporation's most recently completed financial year, being December 31, 2017, with respect to compensation plans under which equity securities of the Corporation are authorized for issuance.

Equity Compensation Plan Information

Plan Category	Number of securities to be issued upon exercise of outstanding options, warrants and rights	Weighted-average exercise price of outstanding options, warrants and rights (\$)	Number of securities remaining available for future issuance under equity compensation plans ⁽²⁾
Equity compensation plans approved by securityholders ⁽¹⁾	4,025,000	\$1.00	81,054
Equity compensation plans not approved by securityholders	Nil	N/A	N/A

Notes:

- (1) Numbers in this row refer to stock options to purchase securities of the Corporation granted pursuant to the Option Plan.
- (2) The maximum number of shares reserved for issuance under the Option Plan at any time is currently 10% of the Corporation's issued and outstanding shares at that time, less any common shares reserved for issuance under other security-based compensation arrangements.

As of the date hereof, there are 4,515,000 options outstanding. If all such options were exercised for common shares, the common shares that would be issued upon such exercise would total approximately 8.33% of the issued and outstanding common shares at the date hereof on a non-diluted basis.

INDEBTEDNESS OF DIRECTORS AND EXECUTIVE OFFICERS

As at the date of this Circular, no executive officer, director, employee or former executive officer, director or employee of the Corporation or any of its subsidiaries is indebted to the Corporation, or any of its subsidiaries. No person who is or who was at any time during the most recently completed financial year a director or executive officer of the Corporation, any proposed nominee for election as a director of the Corporation, or any associate of any such director, executive officer, or proposed nominee is or was at any time since the beginning of the most recently completed financial year indebted to the Corporation or any of its subsidiaries.
