ISOENERGY LTD.
NOTES TO THE CONDENSED INTERIM FINANCIAL STATEMENTS
(Unaudited)
(Expressed in Canadian Dollars)
FOR THE THREE MONTHS ENDED MARCH 31, 2022 AND 2021

1. REPORTING ENTITY

IsoEnergy Ltd. ("**IsoEnergy**", or the "**Company**") is an exploration stage entity engaged in the acquisition, exploration and evaluation of uranium properties in Canada. The Company's registered and records office is located on the 10th Floor, 595 Howe Street, Vancouver, BC, V6C 2T5. The Company's common shares are listed on the TSX Venture Exchange (the "**TSXV**").

As of March 31, 2022, the Company did not have any subsidiaries and NexGen Energy Ltd ("**NexGen**") holds 50.1% of IsoEnergy's outstanding common shares.

2. NATURE OF OPERATIONS

As an exploration stage company, the Company does not have revenues and historically has recurring operating losses. As at March 31, 2022, the Company had accumulated losses of \$43,822,635 and working capital of \$17,598,490. The Company depends on external financing for its operational expenses.

The business of exploring for and mining of minerals involves a high degree of risk. As an exploration company, IsoEnergy is subject to risks and challenges similar to companies at a comparable stage. These risks include, but are not limited to, negative operating cash flow and dependence on third party financing; the uncertainty of additional financing; the limited operating history of IsoEnergy; the lack of known mineral resources or reserves; the influence of a large shareholder; alternate sources of energy and uranium prices; aboriginal title and consultation issues; risks related to exploration activities generally; reliance upon key management and other personnel; title to properties; uninsurable risks; conflicts of interest; permits and licenses; environmental and other regulatory requirements; political regulatory risks; competition; and the volatility of share prices.

Since March 2020, several measures have been implemented in Canada and the rest of the world in response to the impact from COVID-19. The Company continues to enforce certain operating procedures to respond to COVID-19 and during the three months ended March 31, 2022, the Company's business and exploration activities have not been significantly impacted by COVID-19. Notwithstanding the success of vaccination programs in Canada and the continued lifting of COVID-19 restrictions by local and provincial governments, it is possible that in the future there will be renewed outbreaks of COVID-19 with negative impacts on our business and exploration activities and the pandemic and associated disruptions may result in unfavourable capital market conditions and trigger actions such as reduced exploration activities. The Company anticipates this could have an adverse impact on our business, results of operations, financial position and cash flows in 2022.

These financial statements have been prepared using International Financial Reporting Standards ("**IFRS**") applicable to a going concern, which assumes that the Company will be able to realize its assets and discharge its liabilities in the normal course of business for the foreseeable future. The ability of the Company to continue as a going concern is dependent on its ability to obtain financing and achieve future profitable operations.

The underlying value of IsoEnergy's exploration and evaluation assets is dependent upon the existence and economic recovery of mineral resources or reserves and is subject to, but not limited to, the risks and challenges identified above.

ISOENERGY LTD.
NOTES TO THE CONDENSED INTERIM FINANCIAL STATEMENTS
(Unaudited)
(Expressed in Canadian Dollars)
FOR THE THREE MONTHS ENDED MARCH 31, 2022 AND 2021

3. BASIS OF PRESENTATION

Statement of Compliance

These condensed interim financial statements for the three months ended March 31, 2022, including comparatives, have been prepared in accordance with International Accounting Standard (“IAS”) 34 Interim Financial Reporting. They do not include all of the information required by IFRS for annual financial statements and should be read in conjunction with the audited annual financial statements for the year ended and as at December 31, 2021.

Basis of Presentation

These financial statements have been prepared on a historical cost basis, except for certain financial instruments which have been measured at fair value. In addition, these financial statements have been prepared using the accrual basis of accounting except for cash flow information. All monetary references expressed in these financial statements are references to Canadian dollar amounts (“\$”), unless otherwise noted. These financial statements are presented in Canadian dollars, which is the functional currency of the Company.

Critical accounting judgments, estimates and assumptions

The preparation of the financial statements requires management to make judgments, estimates and assumptions that affect the reported amounts of assets, liabilities, and contingent liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Estimates and assumptions are continuously evaluated and are based on management’s experience and other factors, including expectations of future events that are believed to be reasonable in the circumstances. Uncertainty about these judgments, estimates and assumptions could result in outcomes that require a material adjustment to the carrying amount of the asset or liability affected in future periods.

Information about significant areas of judgement and estimation uncertainty considered by management in preparing the financial statements are set out in Note 3 to the annual financial statements for the year ended December 31, 2021 and have been consistently followed in preparation of these condensed interim financial statements.

Reclassification of prior period comparative figures

Certain prior period comparatives have been reclassified for consistency with current period presentation. These reclassifications had no effect on these financial statements.

4. SIGNIFICANT ACCOUNTING POLICIES

The accounting policies followed by the Company are set out in Note 4 to the annual financial statements for the year ended December 31, 2021 and have been consistently followed in preparation of these condensed interim financial statements.

ISOENERGY LTD.
NOTES TO THE CONDENSED INTERIM FINANCIAL STATEMENTS
(Unaudited)
(Expressed in Canadian Dollars)
FOR THE THREE MONTHS ENDED MARCH 31, 2022 AND 2021

5. TRANSACTIONS

(a) Agreement with 92 Energy

On April 14, 2021 IsoEnergy closed a transaction based on a Heads of Agreement (the “**Agreement**”) with 92 Energy Pty Ltd (“**92 Energy**”) for 92 Energy to acquire a 100% interest in IsoEnergy’s Clover, Gemini, and Tower uranium properties in Saskatchewan, Canada (the “**Properties**”) in consideration for the issuance of 10,755,000 fully paid ordinary shares of 92 Energy or 16.25% of the issued and outstanding shares of 92 Energy. The 92 Energy shares were issued at a price of A\$0.20 per share and were in escrow for 12 months following the completion of 92 Energy’s initial public offering on the Australian Stock Exchange (the “**IPO**”). Additional consideration to IsoEnergy for the Properties included milestone cash payments of A\$100,000 within 60 days of the IPO (received June 14, 2021), and an additional A\$100,000 within 6 months of the IPO (received October 8, 2021). IsoEnergy retained a 2% NSR on the Properties and is entitled to nominate a member of 92 Energy’s Board of Directors, provided IsoEnergy maintains a minimum ownership position of 5%. 92 Energy met a contractual requirement to spend an aggregate of A\$1,000,000 on exploration expenditures on the Properties prior to May 1, 2022. As at March 31, 2022 the Company’s shareholding in 92 Energy represents 14.1% of the outstanding capital of 92 Energy.

(b) Mountain Lake Option Agreement

On August 10, 2021, IsoEnergy completed an agreement with Consolidated Uranium Inc. (previously International Consolidated Uranium Inc.) (“**Consolidated Uranium**”), which trades on the TSXV, to grant Consolidated Uranium the option to acquire a 100% interest in the Company’s Mountain Lake uranium property in Nunavut, Canada (the “**Mountain Lake Option Agreement**”).

Under the terms of the Mountain Lake Option Agreement, Consolidated Uranium obtained the option to acquire a 100% interest in the Mountain Lake uranium property for consideration comprised of 900,000 Consolidated Uranium common shares and \$20,000 cash. The option is exercisable at Consolidated Uranium’s election on or before August 3, 2023 for additional consideration of \$1,000,000, payable in cash or shares of Consolidated Uranium (provided certain conditions are met) at the discretion of Consolidated Uranium. If Consolidated Uranium elects to acquire the Mountain Lake property, IsoEnergy will be entitled to receive the following contingent payments in cash or shares of Consolidated Uranium, at the discretion of Consolidated Uranium:

- If the uranium spot price reaches US\$50 per pound, IsoEnergy will receive an additional \$410,000
- If the uranium spot price reaches US\$75 per pound, IsoEnergy will receive an additional \$615,000
- If the uranium spot price reaches US\$100 per pound, IsoEnergy will receive an additional \$820,000

The spot price contingent payments will expire 10 years following the date the option is exercised.

At the date of these financial statements the option has not been exercised by Consolidated Uranium.

ISOENERGY LTD.
NOTES TO THE CONDENSED INTERIM FINANCIAL STATEMENTS
(Unaudited)
(Expressed in Canadian Dollars)
FOR THE THREE MONTHS ENDED MARCH 31, 2022 AND 2021

6. MARKETABLE SECURITIES

Marketable securities consist of 10,755,000 common shares of 92 Energy, 900,000 common shares of Consolidated Uranium and 193,300 common shares of Labrador Uranium Inc. (“**Labrador Uranium**”). On February 22, 2022, Consolidated Uranium completed a transaction pursuant to which it transferred its Moran Lake Project and associated liabilities to Labrador Uranium, which trades on the Canadian Securities Exchange, in exchange for 16,000,000 common shares of Labrador Uranium. Consolidated Uranium subsequently distributed the 16,000,000 common shares of Labrador Uranium to its shareholders and the Company received 193,300 Labrador Uranium common shares.

The carrying value of marketable securities is based on the estimated fair value of the common shares and determined using published closing prices.

	92 Energy	Consolidated Uranium	Labrador Uranium	Total
Balance, January 1, 2022	\$ 6,731,985	\$ 2,583,000	\$ -	\$ 9,314,985

ISOENERGY LTD.
NOTES TO THE CONDENSED INTERIM FINANCIAL STATEMENTS
(Unaudited)
(Expressed in Canadian Dollars)
FOR THE THREE MONTHS ENDED MARCH 31, 2022 AND 2021

7. EXPLORATION AND EVALUATION ASSETS (continued)

All claims are subject to minimum expenditure commitments. The Company expects to incur the minimum expenditures to maintain the claims.

(a) New claim staking and acquisitions

In 2021 the Company acquired 902 hectares of land which is contiguous to the Larocque East property for \$27,139. These claims are subject to a 2% NSR which can be reduced to 1% for \$1,000,000.

(b) Dispositions

The Company disposed of Tower, Clover and Gemini properties in 2021; the related carrying value of \$33,434 was netted in the gain on sale of properties (see Note 5(a)).

(c) Derecognitions

On August 10, 2021, IsoEnergy completed the Mountain Lake Option Agreement (Note 5 (b)). Although at the date of these financial statements the option has not been exercised and the Company retains the rights over the Mountain Lake property, the carrying value of the Mountain Lake property of \$126,495 was derecognized and netted against the gain recognized on the Mountain Lake Option Agreement.

8. CONVERTIBLE DEBENTURES

	31-Mar-22	31-Dec-21
Fair value, balance, start of period	\$ 25,101,132	\$ 14,033,992
Change in fair value in the period included in profit and loss	7,178,291	11,036,471
Change in fair value in the period included in OCI	(15,671)	30,669
Fair value, end of period	\$ 32,263,752	\$ 25,101,132

On August 18, 2020, IsoEnergy entered into an agreement with Queen's Road Capital Investment Ltd. (the "**Debentureholder**") for a US\$6 million private placement of unsecured convertible debentures (the "**Debentures**"). The Debentures will be convertible at the holder's option at a conversion price of \$0.88 (the "**Conversion Price**") into a maximum of 9,206,311 common shares (the "**Maximum Conversion Shares**") of the Company.

On any conversion of any portion of the principal amount of the Debentures, if the number of common shares to be issued on such conversion, taking into account all common shares issued in respect of all prior conversions would result in the common shares to be issued exceeding the Maximum Conversion Shares, on such conversion the Debentureholder shall be entitled to receive a payment (the "**Exchange Rate Fee**") equal to the number of common shares that are not issued as a result of exceeding the Maximum Conversion Shares, multiplied by the 20-day volume-weighted average trading price ("**VWAP**"). IsoEnergy can elect to pay the Exchange Rate Fee in cash or, subject to the TSXV approval, in common shares of the Company.

The Company received gross proceeds of \$7,902,000 (US\$6,000,000) on issuance. The Company revalues the Debentures at the end of each reporting period with the change in the period related to credit risk recorded in Other Comprehensive Income or Loss ("**OCI**") and other changes in fair value in the period recorded in the loss for the period.

ISOENERGY LTD.
NOTES TO THE CONDENSED INTERIM FINANCIAL STATEMENTS
(Unaudited)
(Expressed in Canadian Dollars)
FOR THE THREE MONTHS ENDED MARCH 31, 2022 AND 2021

8. CONVERTIBLE DEBENTURES (continued)

The following assumptions were used to estimate the fair value of the Debentures:

	31-Mar-22	31-Dec-21
Expected stock price volatility	50%	50%
Expected life (years)	3.4	3.6
Risk free interest rate	2.83%	1.78%
Expected dividend yield	0.00%	0.00%
Credit spread	22.31%	21.86%
Underlying share price of the Company	\$4.90	\$3.74
Conversion price	\$0.88	\$0.88
Exchange rate (C\$:US\$)	1.2505	1.2637

The Debentures carry an 8.5% coupon (the “**Interest**”) over a 5-year term. The Interest is payable semi-annually with 6% payable in cash and 2.5% payable in common shares of the Company, subject to TSXV approval, at a price equal to the 20-day VWAP of the Company’s common shares on the TSXV on the twenty days prior to the date such Interest is due. The Interest can be reduced to 7.5% per annum on the public dissemination by the Company of an economically positive preliminary economic assessment study, at which point the cash component of the Interest will be reduced to 5% per annum. In the three months ended March 31, 2022, the Company incurred interest expense of \$161,441 (March 31, 2021: \$161,466).

The Company will be entitled, on or after the third anniversary of the date of issuance of the Debentures, at any time the 20-day VWAP of the Company’s shares listed on the TSXV exceeds 130% of the Conversion Price, to redeem the Debentures at par plus accrued and unpaid Interest.

Upon completion of a change of control (which includes in the case of the holders’ right to redeem the Debentures, a change in the Chief Executive Officer of the Company), the holders of the Debentures or the Company may require the Company to purchase or the holders to redeem, as the case may be, any outstanding Debentures in cash at: (i) on or prior to August 18, 2023, 130% of the principal amount; and (ii) at any time thereafter, 115% of the principal amount, in each case plus accrued but unpaid interest, if any. In addition, upon the public announcement of a change of control that is supported by the Board, the Company may require the holders of the Debentures to convert the Debentures into common shares at the Conversion Price provided the consideration payable upon the change of control exceeds the Conversion Price and is payable in cash.

A “change of control” of the Company is defined as consisting of: (i) the acquisition, directly or indirectly, by a person or group of persons acting jointly or in concert of voting control or direction over 50% or more of the outstanding common shares, (ii) the amalgamation, consolidation or merger of the Company with or into another entity as a result of which the holders of common shares immediately prior to such transaction, directly or indirectly, hold less than 50% of voting control or direction over the entity carrying on the business of the Company following such transaction, (iii) the sale, assignment, transfer or other disposition of all or substantially all of the property or assets of the Company to another entity in which the holders of common shares immediately prior to such transaction, directly or indirectly, hold less than 50% of voting control or direction following such transaction, (iv) the removal by resolution of the shareholders of the Company, of a majority of the then incumbent directors of the Company, which removal has not been recommended in the Company’s management information circular, or the failure to elect to the Company’s board of directors a majority of the directors proposed for election by management in the Company’s management information circular; or (v) the acquisition by any transaction, directly or indirectly, by a person or group of persons acting jointly or in concert of voting control or direction over more of the common shares than are then held by NexGen.

10. SHARE CAPITAL (continued)

The Company uses the Black-Scholes option pricing model to calculate the fair value of granted stock options. The model requires management to make estimates, which are subjective and may not be representative of actual results. Changes in assumptions can materially affect fair value estimates. The following weighted average assumptions were used to estimate the grant date fair values for the three months ended March 31, 2022:

Expected stock price volatility	90.59%
Expected life of options (years)	5
Risk free interest rate	1.59%
Expected dividend yield	0%
Weighted average exercise price	\$4.96
Weighted average fair value per option granted	\$3.48

The Company has share-based compensation related to options that vested or forfeited in the period. Share-based compensation in the three-month periods are as follows:

	2022	2021
Capitalized to exploration and evaluation assets	\$ 387,373	\$ 33,730
Expensed to the statement of loss and comprehensive loss	1,620,388	255,336
	\$ 2,007,761	\$ 289,066

Warrants

As of March 31, 2022, the Company had no warrants outstanding.

11. RELATED PARTY TRANSACTIONS

NexGen is a related party due to its ownership in the Company and the overlapping members of the Board of Directors between NexGen and the Company. Key management personnel include those persons having authority and responsibility for planning, directing and controlling the activities of the Company as a whole. The Company has determined that key management personnel consists of executive and non-executive members of the Company's Board of Directors and corporate officers.

Remuneration attributed to key management personnel is summarized as follows:

Three months ended March 31, 2022	Short term compensation	Share-based compensation	Total
Expensed in the statement of loss and comprehensive loss	\$ 154,193	\$ 1,534,152	\$ 1,688,345
Capitalized to exploration and evaluation assets	50,672	124,641	175,313
	\$ 204,865	\$ 1,658,793	\$ 1,863,658
<hr/>			
Three months ended March 31, 2021	Short term compensation	Share-based compensation	Total
Expensed in the statement of loss and comprehensive loss	\$ 205,803	\$ 249,730	\$ 455,533
Capitalized to exploration and evaluation assets	71,078	9,099	80,177
	\$ 276,881	\$ 258,829	\$ 535,710

11. RELATED PARTY TRANSACTIONS (continued)

As of March 31, 2022, \$2,101 and \$nil (December 31, 2021 – \$nil and \$nil) was included in accounts payable and accrued liabilities owing to NexGen and directors and officers for compensation, respectively.

During the three months ended March 31, 2022, the Company paid NexGen, \$5,272 (March 31, 2021 - \$Nil) for use of NexGen's office space.

On February 28, 2022, the former Chief Financial Officer resigned and was paid \$175,997 in accordance with the terms of her employment contract. This is excluded from the table above for the three months ended March 31, 2022.

On December 6, 2021, NexGen acquired 3,685,929 common shares on the exercise of 3,685,929 warrants with an exercise price of \$0.60. In April 2021, NexGen acquired 1,537,760 common shares on the exercise of 1,537,760 warrants with an exercise price of \$0.60 (see Note 10).

On February 15, 2021, the former Chief Executive Officer resigned and was paid \$897,254 in accordance with the terms of his employment contract. This is excluded from the table above for the three months ended March 31, 2021.

12. FINANCIAL INSTRUMENTS

The Company's financial instruments consist of cash, accounts receivable, marketable securities, accounts payable and accrued liabilities and Debentures.

Fair Value Measurement

The Company classifies the fair value of financial instruments according to the following hierarchy based on the amount of observable inputs used to value the instrument:

- Level 1 – quoted prices in active markets for identical assets or liabilities.
- Level 2 – inputs other than quoted prices included in Level 1 that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices).
- Level 3 – inputs for the asset or liability that are not based on observable market data.

The fair values of the Company's cash and cash equivalents, amounts receivable and accounts payable and accrued liabilities approximate their carrying value, due to their short-term maturities or liquidity.

The Debentures are re-measured at fair value at each reporting date with any change in fair value recognized in profit or loss, except the change in fair value that is attributable to change in credit risk is presented in other comprehensive loss (Note 8). The Debentures are classified as Level 2.

The marketable securities are re-measured at fair value at each reporting date with any change in fair value recognized in other comprehensive income (loss) (Note 6). The marketable securities are Level 1.

Financial instrument risk exposure

As at March 31, 2022, the Company's financial instrument risk exposure and the impact thereof on the Company's financial instruments are summarized below:

(a) Credit Risk

Credit risk is the risk that one party to a financial instrument will fail to discharge an obligation and cause the other party to incur a financial loss. As at March 31, 2022, the Company has cash on deposit with a large Canadian bank. Credit risk is concentrated as a significant amount of the Company's cash and cash equivalents is held at one financial institution. Management believes the risk of loss to be remote.

The Company's accounts receivable consists of input tax credits receivable from the Government of Canada and interest accrued on cash equivalents. Accordingly, the Company does not believe it is subject to significant credit risk.

(Expressed in Canadian Dollars)
FOR THE THREE MONTHS ENDED MARCH 31, 2022 AND 2021

12. FINANCIAL INSTRUMENTS (continued)

(b) Liquidity Risk

Liquidity risk is the risk that an entity will encounter difficulty in raising funds to meet its obligations under financial instruments. The Company manages liquidity risk by maintaining sufficient cash balances. Liquidity requirements are managed based on expected cash flows to ensure that there is sufficient capital to meet short-term obligations. As at March 31, 2022, the Company had a working capital balance of \$17,598,490, including cash of \$10,655,266.

(c) Market Risk

Market risk is the risk of loss that may arise from changes in market factors such as interest rates, foreign exchange rates and commodity and equity prices.

(i) Interest Rate Risk

Interest rate risk is the risk that the future cash flows from a financial instrument will fluctuate due to changes in market interest rates. The Company holds its cash in bank accounts that earn variable interest rates. Due to the short-term nature of these financial instruments, fluctuations in market rates do not have a significant impact on the estimated fair value of the Company's cash and cash equivalent balances as of March 31, 2022. The interest on the Debentures is fixed and not subject to market fluctuations.

(ii) Foreign Currency Risk

The functional currency of the Company is the Canadian dollar. The Company is affected by currency transaction risk and currency translation risk. Consequently, fluctuations of the Canadian dollar in relation to other currencies impact the fair value of financial assets, liabilities and operating results. Financial assets and liabilities subject to currency translation risk primarily include US dollar denominated cash, US dollar accounts payable and accrued liabilities, the Debentures and Australian dollar denominated marketable securities. The Company maintains Canadian and US dollar bank accounts in Canada.

The Company is exposed to foreign exchange risk on its US dollar denominated Debentures. At maturity the US\$6 million principal amount of the Debentures is due in full, and prior to then at a premium upon the occurrence of certain events, including a change of control. The Company holds sufficient US dollars to make all cash interest payments due under the Debentures until maturity but not to pay the principal amount. Accordingly, the Company is subject to risks associated with fluctuations in the Canadian/US dollar exchange rate that may make the Debentures more costly to repay.

A 5% change in the US dollar exchange rate can result in a net increase or decrease in the Company's US dollar-based cash and debt of \$1,528,020 that would flow through the statement of loss.

The Company is also exposed to foreign exchange risk on its Australian dollar denominated investment in 92 Energy. Accordingly, the Company is subject to risks associated with fluctuations in the Canadian/Australian dollar exchange rate that may decrease the value of its investment in 92 Energy.

A 5% change in the Australian dollar can increase or decrease the value of the Company's investment in 92 Energy by \$289,541 that would flow through Other Comprehensive Income (Loss).

(iii) Price risk

The Company is exposed to price risk with respect to commodity and equity prices. Equity price risk is defined as the potential adverse impact of movements in individual equity prices or general movements in the level of the stock market on the Company's financial performance. Commodity price risk is defined as the potential adverse impact of commodity price movements and volatilities on financial performance and economic value. Future declines in commodity prices may impact the valuation of long-lived assets. The Company closely monitors the commodity prices of uranium, individual equity movements, and the stock market. The Company holds marketable securities which are subject to equity price risk.

(Expressed in Canadian Dollars)
FOR THE THREE MONTHS ENDED MARCH 31, 2022 AND 2021

13. SEGMENT INFORMATION

The Company operates in one reportable segment, being the acquisition, exploration and development of uranium properties. All of the Company's non-current assets are located in Canada.

14. SUPPLEMENTAL DISCLOSURE WITH RESPECT TO CASH FLOWS

There was no cash paid for income tax in the three months ended March 31, 2022 and 2021.

Non-cash transactions in the three months ended March 31, 2022 and 2021 included:

- (a) A non-cash transaction of \$387,373 (March 31, 2021 – \$33,730) related to share-based payments was included in exploration and evaluation assets.
